KW-14

High-Definition Wireless Extension

The **KW-14** wireless extender offers short-range wireless AV distribution ideal for indoor presentation and multimedia applications, including meeting rooms, classrooms, and more. The KW-14 consists of pre-associated high-definition, wireless, HDMI transmitter/receiver pairs. The KW-14 provides unparalleled extension versatility with up to four **KW-14R** receivers receiving from a single **KW-14T** transmitter and up to three transmitters paired with a single receiver, simultaneously.

FEATURES AND BENEFITS:

Advanced AV connection and distribution:

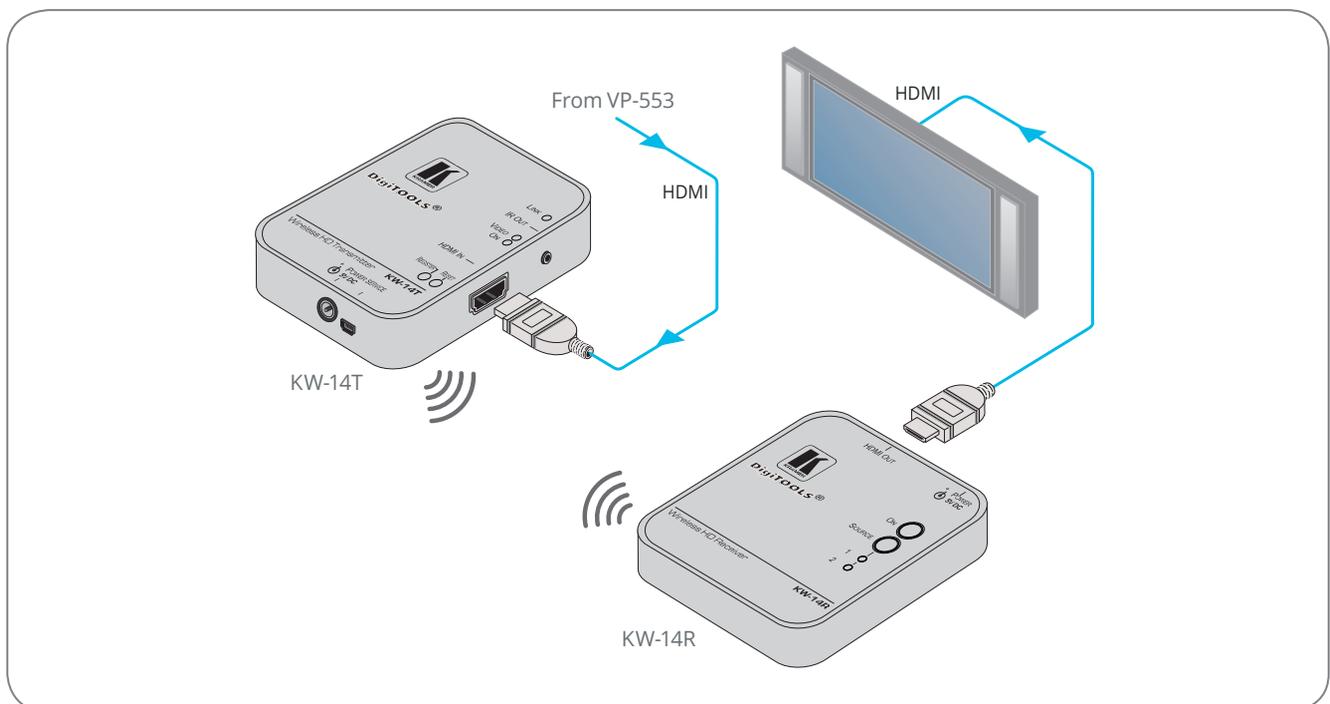

- Max. Data Rate – 6.75Gbps (2.25Gbps per graphic channel), up to 12-bit Deep Color.
- Secure Link – AES-128 bit encryption.
- Connection Capacity – Up to four receivers can receive from one transmitter and up to three transmitters can be paired with one receiver, simultaneously.
- Transmission Range – Up to 30m (100ft), including through walls and furniture.
- HDCP Compliant – HDCP sources are supported only when all connected displays support HDCP.
- Zero Latency.

Simplified setup and usage:

- Automatic Frequency Selection – Selects the most suitable frequencies to prevent RF interference.
- Auto EDID Adjustment – Enables multi-screen support.
- IR Remote Control – Enables displaying the OSD menu on an output display.
- OSD – Provides simple setup and configuration via on-screen display.
- CEC – Fully supports Consumer Electronics Control.

Environmentally-friendly:

- Automatic Sleep Mode – After three minutes when no input or link is detected.
